**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 21, 22 with the allowable features being; a first self-locking adjuster is arranged for transmitting a force in a first adjusting direction between the first and the intermediate plate elements, and in turn a second self locking adjuster is arranged for transmitting a force in a second adjusting direction between the intermediate and the second plate elements(claims 1); at least one self-locking adjuster arranged to transmit a force parallel to a plane of one of said light modules in order to adjust the relative position of the modulator, wherein the adjuster is accessible from the outside of the housing(claims 21, 22). Therefore claims 1-23 allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
